

WEBLIST 39F

Welcome to our 2nd of what we hope will be regular twice monthly Fixed Price Lists on our website. As usual there are not photos included but we'll gladly try to provide photos of any items on the list wherever possible. Please note that beginning on November 12th for 5 to 7 days or so it will be difficult for us to provide this service as we will be busy with the paperwork associated with the closing of our auction.

Among the highlights of this list is a nice selection of Judaen coins from two new collections plus from our inventory. From one of the collections we are also offering a few Jewish reference Roman coins as well as very nice Tyrian silver coins. The Roman section contains the aforementioned Jewish reference coins as well as some rare, albeit low grade, coins of Mark Antony, Augustus and Vitellius. Also being offered are some nice 4th century coins including an exceptional silver Siliqua of Valens. The world section contains a 1/8 pattern penny of Anticosti Island, an exceptional large bracteate of Halberstadt, 5 Israeli gold coins including a Bank Proof offered at the lowest price in many years and nice runs of Japanese and Mexican crowns. Also listed is a neat box taler of Lombardy from 1849, two Lion Dollars, 2 nice Palestine 100 mil coins, two incredibly high priced Peruvian 8 Reales and a nice group of Russian coins. Happy Hunting.
